The publication provides information on the results achieved in 2009 in agriculture, forestry and food industry. We assured the comparability of time-series in connection with the pocket-books published in the recent years.

Besides the national and branch indicators and data, the principal agricultural data are also given in details by counties.

The international data are suitable to demonstrate the main trends.

With the English and also with the German and French publication of the pocketbook we wanted to render help to the foreign partners of the Hungarian agricultural institutions, research institutes and economic organizations.

The published data are compiled on the basis of the publications of the Central Statistical Office, EUROSTAT, the Food and Agricultural Organization (FAO) and the Research Institute of Agricultural Economics.

EXPLANATION OF SYMBOLS

.. = data not available

- = no data

0 = data cannot be expressed, being smaller
than the unit applied

^{+) = preliminary estimate}

NOTE: Data for the year 2009 are preliminary, therefore they may later change.
