The publication provides information on the results achieved in 2013 in agriculture, forestry and food industry. We assured the comparability of time-series in connection with the pocket-books published in the recent years.

Besides the national and branch indicators and data, the principal agricultural data are also given in details by counties.

The international data are suitable to demonstrate the main trends.

The published data are compiled on the basis of the publications of the Central Statistical Office, EUROSTAT, the Food and Agricultural Organization (FAO) and the Research Institute of Agricultural Economics.
