The publication provides information on the results achieved in 2019 in agriculture, forestry and food industry. We assured the comparability of time-series in connection with the pocketbooks published in the recent years.

Besides the national and branch indicators and data, the principal agricultural data are also given in details by counties.

The international data are suitable to demonstrate the main trends.

The published data are compiled on the basis of the publications of the Central Statistical Office (KSH), the National Game Management Database (OVA), the National Land Centre (NFK), the Eurostat, the Food and Agricultural Organization (FAO) and the Research Institute of Agricultural Economics (NAIK AKI).

## EXPLANATION OF SYMBOLS

.. = data not available

... = confidential data closed with data security barriers

- = no data

**0** = data cannot be expressed, being smaller than the unit applied

+<sup>1)</sup> = preliminary estimate

*NOTE:* Data for the year 2019 are preliminary therefore they may later change.
